Sl. No.	Name of the Bulk Drug	Unit	Price fixed for indigenously produced Drugs under DPCO, 1979	Unit	CIF Rate (1985-86)
1.	Tetracycline HCl.	kg.	971.00	kg.	571.00 for base
2.	Gentamycin	kg.	23500.00	kg.	3019.81 for Sulphate
3.	Vitamin B-6	kg.	1200.00	MU	342.77
4.	a) Vitamin B-1 Mononitrate	kg.	1011.50	MU	326.65
	b) Vitamin B-1 HCl. (Amp.)	kg.	1005.00		
	c) Vitamin B-1 HCl. (Oral)	kg.	950.00		
5.	Ibuprofen	kg	845.60	kg.	288.47
6.	Furazolidone	kg.	254.00	kg.	92.91

Potential for wind power generation

1010. SHRI MAHENDRA PRASAD: SHRI MURLIDHAR CHANDRAKANT BHANDARE:

Will the Minister of ENERGY be pleased to state:

(a) whether any assessment has been made about the potential for generation of wind power in the country per year; if so, what are the details thereof;

(b) what progress has been made so far in tapping this power potential; and

(c) what is the plan for fully utilising the potential?

THE MINISTER OF ENERGY (SHRI VASANT SATHE): (a) According to a preliminary estimate, there is potential for generation of 20,000 MW of wind power in the country, which could result in an annual energy generation of 40,000 million units. To obtain more accurate and reliable estimation of the total potential, wind survey projects have been initiated in different parts of the country.

(b) Five demonstration wind farm projects of planned aggregate capacity 5.5 MW have been taken up at Mandvi and Okha in Gujarat; Tuticorin in Tamil Nadu; Puri in Orissa; and Deogarh in Maharashtra. Wind electric generators of 3.63 MW capacity have already been commissioned, and about 65 lakh units of electricity have been fed to the State grid.

(c) According to the paper prepared by the Department of Non-Conventional Energy Sources entitled "Energy '2001' prespective Plan", an installed capacity of 5000 MW for wind power generation could be realized by the end of the century, provided sufficient funds are allocated for this purpose.

Commissioning of H.B.J. Pipeline

1011. SHRI MAHENDRA PRASAD: SHRI MURLIDHAR CHANDRAKANT BHANDARE:

Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state:

(a) whether the Hazira Bijapur-Jagdishpur pipeline has since been commissioned;

(b) if so, at what cost and what is the total delay in commissioning it and the loss of gas as a result thereof; and

(c) what are the details of the public and private sector industries which have started functioning so far with HBJ gas?
